## EXPERIENCE

2021 Apr 12 **Aspire**  
Present **Systems**

In Aspire I have significantly contributed to various projects, showcasing exceptional skills in crafting user-centric interfaces. My diverse experience spans across projects with esteemed clients like HDFC Life, PWC, PIF, and Greenpath. Each project posed unique challenges, requiring a tailored approach from wireframes to the final design for both mobile and web, emphasising user experience and aligning with the respective business goals.

2016 Jul 25 **Fingent Global**  
2021 Mar 31 **Solutions**

In Fingent I have navigated through diverse service projects and contributing significantly to various domains, including banking, HR management, and real estate. I've honed my skills not only in conventional design principles but also in implementing cutting-edge technologies like HTML, CSS, Bootstrap, Angular and React. A highlight of my journey has been my involvement in shaping a company product called Reachout, where my role evolved and expanded.
